

# New Shore Park - Landscape Design Opportunity

## South Shields Riverside, Tyne & Wear

**The site:** A stunning waterfront location close to the mouth of the River Tyne linking to our historic Market Square and town centre.

**The commission:** Appointment of a Landscape Architect by Invited Design Competition to design a 2.65 ha new public park and join our established delivery team to implement its construction.

**The client:** South Tyneside Council

**The context:** South Tyneside Council and One North East are working in partnership to bring forward the regeneration of a 35 ha brownfield site at South Shields Riverside.

Our ambitious masterplan sets the vision for development of 5 new mixed use neighbourhoods linked by a superb new riverside park. With commercial development underway and new homes from next year, we are moving ahead to make this vision a reality.

All expressions of interest in this appointment should be made via NEPO at [www.qtegov.com.com/procontract/supplier.nsf](http://www.qtegov.com.com/procontract/supplier.nsf)
